

I have enjoyed the last couple of years with NO Phone solisitors
calling at all hours of the day and night(ie:6:00 AM or 11:30 PM).
I think , to allow them to start again would be a very stupid and unthinkable
thing for the FCC to allow.
If you allow this to be done, The FCC should be required to post all of their
PERSONAL PHONES on the FCC web site so that all of the U.S.A could call them at
all times of the night to disturb thier iner sactom!
